Item 13 – Resolution on authorization to issue shares

The board of directors proposes that the general meeting resolves to authorise the board of directors for the period up to the next annual meeting of shareholders to resolve, on one or several occasions, to issue shares, warrants and/or convertible loans (or combinations thereof, so-called units) by an amount corresponding to a maximum of 15 percent of the Company's registered share capital at the time the authorization is invoked for the first time. If the board uses the authorization, it may also be done with a deviation from the shareholders' pre-emptive right and/or with provisions regarding in-kind or set-off.

An issue in accordance with this authorization shall be on market terms. The board of directors shall have the right to determine the terms and conditions regarding issues under this authorization and what persons shall be entitled to subscribe for issued securities. The reason why the board should be able to resolve on an issue with a deviation from the shareholder's pre-emptive right and/or with a provision on in-kind or set-off is that the Company should have the opportunity to procure capital for the Company, carry out strategically motivated collaborations or business acquisitions and facilitate the implementation of issues in order to strengthen the Company's financial position.

The company's CEO is proposed to be authorized to make the minor adjustments in this resolution that may be necessary in connection with registration at the Swedish Companies Registration Office (sv. Bolagsverket) and at Euroclear Sweden AB.

Majority requirements

For resolutions in accordance with the board of director's proposal according to item 13 (authorization) above, it is required that the resolution be supported by shareholders with at least two-thirds of both the votes cast and the shares represented at the meeting.
